

## Medical Files - Toolkit for Oncology Patients

**THIS IS AN ANONYMOUS APP. PLEASE MAKE SURE TO DELETE ANY PERSONAL INFORMATION BEFORE UPLOADING YOUR DOCUMENTS.**

An up-to-date digital medical binder allows you to organize all your medical records in one place. You can share them privately with the medical team, your family, and your caregiver. It may also allow you to better manage and navigate your treatment. You may use your medical records for other purposes such as: managing your health insurance claims, taxes, and other legal matters.

Other Belongers make use of the digital Binder by uploading some of the following documents:

**Doctor Summary:** Dates and details of other major illnesses, treatments, tests, biopsies, diagnostic examinations, surgeries, allergies, medication, family medical history, chronic health conditions, and hospitalizations. Immunizations. Details of past physical exams, including cancer screening tests.

**Cancer Diagnosis:** Diagnosis, the specific primary cancer type and stage (Histological Type), date of diagnosis, date of surgery or biopsy, place where the procedure was performed, surgery performed, results of surgery, any problems.-  
post-surgery, copies of diagnostic test results and pathology reports.

**Treatment:** Complete treatment information, such as chemotherapy drug names and doses, sites and doses of radiation therapy. Start and end dates for all treatments. Results of treatment and any complications or side effects. Treatment of the various side effects. Hospitalizations with dates and other medical details

**Imaging Reports:** Such as CT Scans, MRIs, X-rays, Pet CTs, Ultrasounds and others.

**Pathological Reports:** What type of biopsy was done? When was the biopsy done? From which part of the body was the biopsy taken? Results of the biopsy.

**Genetic and Genomic Test Results.**

**Previous surgeries and treatments.**

**Insurance Coverage.**
